

Report for Building Future Village's Toilet and Bathroom

Report prepared by Christie Lam, Dambar Adhikari 20th June 2007

- Aims: To improve sanitation situation of Future Village Guest House and hopefully can attract more volunteers' long stay in the village for teaching village kids English
- Construction Completion time: end of May 2007
- Major Funding Sources: Studer Trust, Kimme Hui and Sarah
- Estimate Budget: Rs 89,600 (USD 1,280 based on previous exchange rate 70)
- Actual Expense Amount: Rs 92,817 (USD 1,451 updated exchange rate 64)

*Slightly over-budget is due to the lack of electricity and skill labour in the village, this resulted more working days and labour salary expense.

Final Expense Record of Building Toilet and Bathroom

Items	Amount
1. Wages for 105 working labour (daily salary Rs 250)	Rs 26,250
2. Construction materials (such as cement and sand from the river)	Rs 29,390
3. Tiles and piles and water drum and wood	Rs 21,220
4. Food for workers	Rs 7,000
5. Transport (construction materials)	Rs 8,958
Total	Rs 92,817 (HKD 11,319) (USD 1,451)

Sharing (written by Christie Lam)

I am deeply indebted to two pervious visitors **Kimme Hui** and **Sarah**, without their spiritual and materialy support; we won't able to build the toilet and bathroom. I will also extend my gratitude to the involvement of **Trust Studer**. Its effort on helping small-scale social project like Future Village gives us great encouragement.

Finally, I must give my greatest thankfulness to **Dambar Adhikari** and **his whole family**. Without their helps, it is unlikely we can build a toilet and bathroom even though it looks so simple in the village environment. The hard work and difficulties involved in this construction work is hardly described in words (no electricity and no enough water) and imaged by the city people like myself. Working with those energetic and determined people, I feel hope is always existence, that's why our project is named 'Future Village'.
